YOU'RE THE FUEL!

MARUTI  SUZUKI
Way of Life!

MORE, MORE, MORE SWIFT

A STORY OF PASSION.

The Swift wasn't born in 2005. It was inspired, from some of the world's most famous performance machines. Like the Suzuki Hayabusa 1300R, created as the world's fastest production motorcycle.

It had an uncommon evolution. From the first concept car, the GSX R4 to the Concept S, then the Concept S2, a disruptive open-top convertible, to the global launch of the radically-styled Swift.

What followed were numerous awards, accolades and a huge club of die-hard fans. The Swift was applauded by one and all. Now, after six years at the top, it's time to take this passion to a whole new level.

ENTER THE NEW SWIFT.

One can't have enough of the Swift. Of its unique charisma that's led to a passionate fan following. And every little change and improvement in the New Swift that makes it unmistakably more Swift. It has more attitude, more style, more sportiness, more performance and it's more premium. Its form and feel inspire even more passion and excitement. Even before you get behind the wheel, you'll agree the New Swift is 'More Swift' than ever before. Just so many more reasons to join the Swift fan club.

DESIGNED DISTINCTIVELY

The Swift's bold and stylish design forms a silhouette like none other. Its unique spirited character now stands enhanced. This strong, dynamic and spirited car is once again set to rule Indian hearts and make the pulse of the passionate Swift devotee race faster.

- Aerodynamic lines – more fluid, more energetic, more stylish.
- Enhanced dimensions – stronger, more distinctive presence with a 90 mm increase in length, 40 mm increase in wheelbase and a 5 mm increase in width.
- Athletic stance – elegant with a sense of power.
- The distinctive Swift design DNA has been retained in the New Swift, while taking it to the next level.

EXCITEMENT WELCOMES PREMIUMNESS, INSIDE

Expect to be blown away when you step inside the New Swift. With its stylish and premium interiors, sitting inside one is cause for immediate excitement and anticipation.

- Trendy and premium interiors – a refined yet lively ambience.
- High quality materials and upholstery for a premium feel.
- Improved ergonomics – adds more ease and makes every drive more pleasurable.
- Layered dashboard with waterfall centre console – for a stylish and trendy look.
- Wrap around premium trims with sporty silver accents – creates a plush feel.

COMFORT IS ADDICTIVE

Fully loaded with premium features and thoughtfully designed comforts, in the New Swift, driving becomes a smooth yet thrilling experience. An experience that makes the Swift an obsessive passion.

- Body hugging front seats – bigger and more comfortable.
- More legroom and foot space for rear passengers.
- Multi-information LCD display – fuel consumption meter, low fuel warning lamp, a 7-step illumination control odometer, trip meter, temperature and time.
- New user-friendly design instrument panel.
- Improved suspension – look forward to smoother drives.
- Reduced NVH (noise, vibration, and harshness) – increased driving pleasure.
- More convenience – tilt steering, lane change indication, car locator, and smoother gear shift.
- Intelligent speed-based audio control – for a pleasurable audio experience.

GET THE PERFORMANCE BUZZ

The New Swift has raised the bar on performance. Whether it's the new advanced K-Series Petrol engine powered by VVT or the legendary DDiS Diesel engine, each takes a step forward with adrenaline-pumping performance and enhanced fuel efficiency.

Floor the New Swift and you'll see how it takes the Swift's acclaimed handling to a whole new level. Whatever the road, it handles like a dream and truly delivers 'fun of drive'.

Advanced K-Series Petrol engine powered with VVT

- Increased power output, for more performance.
- More excellence in terms of finish.
- 16-Valve light weight DOHC (Double Over Head Camshaft) engine with drive chain reduces friction and improves durability.
- Improved Fuel Efficiency.
- Lower Emissions.
- Friction Reduction.
- Hydraulic Engine Mount for better NVH**.
- Low maintenance K-Series engine for longer oil change intervals and improved spark plug life.

Award winning* DDiS Diesel technology

- Turbocharger and Intercooler Combination leads to efficient combustion, higher torque and cleaner emissions.
- 5-Step Multi Injection Common Rail System @ 1400 Bar leads to better fuel combustion and optimised NVH**.
- Double Over Head Camshaft (DOHC) gives precise and quick valve operation.
- Chain Drive Timing System with Auto Tensioner gives precise valve timing and is maintenance-free for the entire engine life.
- Green Oil Filter ensures an environmentally friendly BS IV engine that is easy to maintain.
- 16-Valve Cylinder Head improves breathing and leads to better fuel combustion and cleaner emissions.

CONTROL IS EVERYTHING

- New Gen RBSS (Rally-based Suspension System) – further improves the Swift's renowned sporty handling and ride quality for a smooth experience that makes it unarguably best-in-class.
- Improved transmission for both Petrol and Diesel variants – for smoother gear shifts and effortless maneuvering through city traffic.
- Sharp turning radius of 4.8 mtrs provides easier maneuvering.
- Larger, wider, lower profile tyres – grabs the road like tar itself; tyres are optimised for improved handling, fuel economy and NVH** parameters.

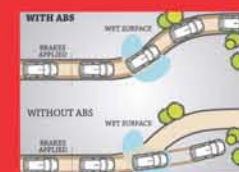

*As certified by Test Agency Under Rule 115 of CMVR 1989. *International engine of the year, Europe 2005. UKIP Media and Events - Automotive Magazines Division.
**Noise, Vibration and Harshness.

PLAY, BUT PLAY SAFE

While the Swift is about fun driving, we believe, it must also be about responsibility. The New Swift carries this forward by ensuring you feel absolutely protected even as you are delighted.

- Superior Dual SRS Airbags – better driver safety in accidents.
- Boost Assist System (BAS) Braking – more efficiency and responsiveness in emergency situations.
- New generation ABS – with Motor Speed Regulation system for better control.
- Increased Torsional Rigidity – enhanced stiffness for superior handling.
- Improved Anti-Rust performance with coated steel sheet to avoid corrosion.

NEW GENERATION ABS

DUAL SRS AIR BAGS

INCREASED TORSIONAL RIGIDITY
